General Report Comments:

Identification

Document No: 1102779 Validation Date: 12 August 2019

Identification

Mineral Type: Natural Beryl
Variety: Emerald

Color Description: Green

Carat Weight: 2.64 cts

Shape: Pear

Measurements: 11.62 x 8.04 x 5.13 mm

Cutting Style: Modified Brilliant Cut

Comments:

American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977.

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue

Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.

Origin

Origin
Provenance: Colombia

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Enhancement

Enhancement

Standard: Clarity
Degree: Minor
Type: Oil-type
Stability Index: Very Good to Good

Additional: None

Comments: Emeralds are commonly clarity enhanced to reduce the visibility of fissures. Oil is a traditional type of filling material used to reduce the visibility of fissures.
