General Report Comments:

Document No: CS 62317 Validation Date: 28 July 2014

Identification

Mineral Type: Natural Beryl
Variety: Emerald

Color Description: Green

Carat Weight: 2.22 cts
Measurements: 11.58 x 7.92 x 4.34 mm

Shape: Pear
Cutting Style: Mixed Cut

Comments:

Identification

Origin

Provenance: Colombia

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Origin

Enhancement

Standard: Clarity
Degree: Minor
Type: Traditional
Stability Index: Very Good to Good

Additional: None
Degree: N/A
Type: N/A
Stability Index: N/A

Comments: Emeralds are commonly clarity enhanced to reduce the visibility of fissures. Traditional materials used to clarity enhance emeralds include various oils (such as Cedarwood oil), waxes (Paraffin) and natural resins such as Canada Balsam, as well as others. N/A represents Not Applicable

Christopher P. Smith, President

American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.
