# PORTRAIT OF ONE IMPORTANT 10.01 CT “PIGEON’S BLOOD” RUBY

Appendix to GRS2021-120003

Award No. 3327

---

**G**RS Laboratories examined a 10.01 ct natural ruby, described in report number GRS2021-120003, that demonstrates good characteristics worthy of a dedicated mention.

This important Mozambican ruby is distinguished by a very rare combination of size over 10 ct, a fine vivid red color variety, good brilliancy and transparency.

Analytical and advanced testing traces the origin of this gemstone to the mines of Mozambique, the mining area currently producing the largest and most significant rubies. The fascinating internal world of classic Mozambican ruby inclusions can be clearly witnessed in this particular gemstone. At the time of testing, it was concluded that the gemstone was thermally enhanced.

The combination of good attributes that this ruby displays was concluded to be important. This vivid red Mozambique ruby is reminiscent in color saturation of “GRS-type pigeon’s blood ruby” (without strong fluorescence). The vivid red color radiates harmoniously in tone and color saturation. A high degree of lapidary craftsmanship adds value to the nature of this gemstone.

Rubies of this size and quality are rare.

GRS Report Number	GRS2021-120003 (Award No. 3327)
Date	1st December 2021
Object Description	One important gemstone
Identification	Natural Ruby
Weight	10.01 ct
Dimensions	16.18 x 9.01 x 5.85 (mm)
Cut	Step/step (4)
Shape	Octagonal
Color	Vivid red *
Comment	H
Origin	Mozambique

\* This vivid red Mozambique ruby is reminiscent in color saturation of "GRS-type pigeon blood ruby" (without strong fluorescence).

## GEMSTONE REPORT

EDELSTEINBERICHT  
RAPPORT DE PIERRE PRÉCIEUSE

PLATINUM RARITY AWARD ISSUE

No. GRS2021-120003 (Award No. 3327)  
Date 1st December 2021  
Object One important gemstone  
Identification Natural Ruby

Weight 10.01 ct  
Dimensions 16.18 x 9.01 x 5.85 (mm)  
Cut step/step (4)  
Shape octagonal  
Color vivid red \*  
Comment H

### Origin

Gemmological testing revealed characteristics corresponding to those of a natural ruby from:

Mozambique

\* Special comment see appendix
